We've got spirit, yes we do! Let Skugga take you through the evening, from aperitif to late night drinks to keep the good times rolling.

OUR STORY

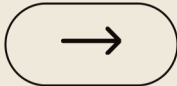

Skugga began in 2016 as a small father-and-sons venture, tending a 250 Rai (100-acre) plantation in the mountains outside Chiang Mai. The name Skugga — Swedish for “shade”—honors the forest canopy that shelters our coffee, tea, and cacao.

From the start, our focus was on authenticity: shade-grown harvests, handcrafted processes, and an end-to-end journey from tree to cup (and bar). People embraced our approach, not just for the quality, but for the story it told—one rooted in nature, family, and care.

That spirit has carried us into our next chapter: Skugga Vineyard. More than a vineyard, it is a fine dining restaurant, bistro, and event space where farm-to-table cuisine comes alive. Our menus are guided by what grows on our land in Thailand—seasonal produce, coffee, cacao, and botanicals—brought together with a deep passion for wine to create experiences that connect plate, glass, and place.

Today, Skugga is more than a plantation or a vineyard. It is a place where coffee, cacao, and wine meet; where the land guides what we create; and where guests are invited to share in the simple, timeless joy of food, drink, and connection.

IF NOT HERE. THEN WHERE?

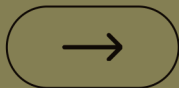

At Skugga Vineyard, we are working diligently to establish and expand our own vines and wines. Tropical viticulture presents its own unique challenges, but the results will be truly rewarding. Until then, we're proud to offer Skugga Wines that are grown and crafted in South Australia, made specifically for us.

Fernfield Wines is an award winning, boutique, family-run winery in South Australia, led by husband-and-wife team Scott and Bec Barr. With Bec's background in chemical engineering and Scott's passion for the vineyard, they take a hands-on approach to every step of the process. Each small batch is carefully tended, tasted daily, and basket-pressed to ensure gentle handling and exceptional flavour.

Sustainability is at the heart of their work — from solar power and water-wise vineyard practices to revegetation and wildlife recovery projects — all supporting their vision of making great wine with respect for the land.

Skugga is thrilled to collaborate with Scott and Bec on this journey. Their dedication, care, and authenticity shine through in every bottle, bringing the best of South Australia to our guests.
