Skugga Single Origin Cacao Beans

Skugga Chocolate Lab

Skugga Cacao Farm

The company started as a father and sons venture in the coffee business in 2016, with a 250 Rai plantation in the mountains outside of Chiang Mai. The brand was created at that time, and used with little change since.

After planting 40,000 coffee trees in the forest, Skugga expanded into cacao, avocado and macadamia, with its farm in Mae On, Chiang Mai. This would be the center for processing all products, and the future home to the Chocolate Bar, Tea Bar, Roll Bar Bakery BarBQ and Skugga Classic Car Garage.

The branding and the high quality handcrafted products was a success with consumers, who appreciated what the brand stands for:

QUALITY HANDCRAFTED AUTHENTICITY HONESTY KNOWLEDGE SHARING WELCOMING

OUR CEREMONIAL CACAO

All Skugga ceremonial chocolate products are from unroasted beans.

They are single origin organic beans grown in Chiang Mai province in northern Thailand.

The beans are exclusively an IM1 variety, developed specifically for northern Thailand. It is a natural hybrid variety, using the best traits of the Criollo, Forastero and Trinitario cacao. Hence the farms in Thailand, although a single variety, will contain yellow, orange and purple cacao pods.

Our variety of cacao is significantly less bitter and more complex in flavour than the common cacao beans found throughout Thailand, making it ideal for raw cacao use.

The Ceremonial and Dark Chocolate ranges are all vegan and none of the Skugga product chocolate range contain any additives, preservatives, colorings etc.
